THE ESSENCE OF COLORTEK®

Innovative, technology-led craftsmanship is at the core of the Colortek® Haute-Couture Collection, where refined and carefully developed products seamlessly blend technique and design to create one of a kind decorative effects.

Organic shapes, matte to metallic textures and bold colors are signature elements of this collection, each piece featuring a curated selection of beautiful items that match the authenticity of the space we envision.

The result is a delicate balance of mismatched styles, celebrating our clients' diverse lifestyles and the spirit that defines Colortek's uniqueness: a colorful clashing of craftsmanship, technology, and design, artfully combined to reinvent decorative paints.

A special thank you to Interior Designer Valérie Ghammachi and to Sia Home Fashion for their contribution in translating this book's vision into reality.

TECHNICAL

TECHNICAL INFORMATION

The Haute Couture Bespoke Collection is made possible by specialty Colortek® decorative plasters with unique physical properties that serve as the foundation for the designs imagined by architects and interior designers. These products can be combined with our complete range of decorative and architectural paints, thus providing creative studios with unlimited flexibility to create spaces infused with design-led craftsmanship.

Product	Typical Use	Thickness	Substrates
3D ROCHE® Drum & Gallon 	A high-build powder filler used to create realistic and complex decorative designs. Recommended for volumetric and intricate designs combining different textures with several levels of depth.	Up to 30 mm / coat	■ Concrete ■ Shuttered concrete ■ Rendered cement ■ Cement plaster ■ Painted or unpainted walls ■ Plasterboard ■ Gypsum ■ Primed Wood ■ Canvas ■ Paper
TERRE DE LUNE® Drum & Gallon 	A high-build paste filler used to create realistic and complex decorative designs. Recommended for medium thickness textures.	Up to 3 mm / coat	■ Concrete ■ Shuttered concrete ■ Rendered cement ■ Cement plaster ■ Painted or unpainted walls ■ Plasterboard ■ Gypsum ■ Primed Wood ■ Canvas ■ Paper
TOILE TISSÉE® Drum, Gallon & Quart 	A paste filler formulated that provides absorbent substrates with flexibility and stiffness. Recommended when greater flexibility and finer details are required or as a base for gilding or painting on canvas and wood when bespoke designs are meant to be implemented as wall art.	Up to 1 mm / coat	■ Concrete ■ Shuttered concrete ■ Rendered cement ■ Cement plaster ■ Painted or unpainted walls ■ Plasterboard ■ Gypsum ■ Primed Wood ■ Canvas ■ Paper

Notice

Proper lighting should be directed towards the wall to bring out the metallic sheen of decorative finishes. Professional lighting was used to highlight the unique effects of each decorative effect showcased in this collection.

Bespoke effects should be applied by skilled and experienced artisans. The final appearance of the effect is highly dependent of the applicator's skills as well as of his/her experience in mixing colors, products and textures required to achieve the desired effects.
